

GLOBAL CERTIFICATE IN DATA SCIENCE AND ARTIFICIAL INTELLIGENCE®

Online | 11 Terms

11 Months (**Regular**)

6 Months (**Fast track**)

ABOUT INSAID

INSAID is India's first academic institution dedicated to research and education in Data Science and AI . INSAID's vision is to groom Data leaders of tomorrow.

INSAID is pioneering democratization of AI & Data Science by disseminating world class education targeted to make professionals into Data leaders of tomorrow.

The GCDAI program at INSAID is designed for working professionals like you who cannot leave their job to study full time.

The GCDAI program experience will transform you and equip you with the tools, training and

most important mindset required to cracking jobs and actually becoming a data leader of tomorrow.

As a proud alumnus of this program, you will not only have the tools & training required for a successful career in Data Science a , Machine Learning & AI but more importantly you will have new perspective, confidence and thought process that will help you become a Data leader of tomorrow.

1st

India's 1st academic Institution dedicated to AI & Data Science research & education

INSAID's vision is to put India on global AI map

Democratize Data education

100K

INSAID's mission is to groom Data leaders of tomorrow

WHY DATA SCIENCE & AI

From cancer research to online product recommendations, Data Science & AI today are not only driving billions of dollars in economic value but also solving those problems which we only imagined in science fiction.

Every company in every industry that you can think of- e-commerce, healthcare, airlines, oil & gas, BFSI, manufacturing ,telecom is looking at leveraging Data Science & AI to cut costs, automate things and build amazing products and services.

Today there are more jobs in Data Science and AI than the available talent. And this demand supply gap in talent is working in favor of professionals with

these in demand skills providing them more choices, faster career growth and higher salaries.

Today Data Scientists and AI experts are being hired not only by IT companies but by banks like ICICI, HDFC, by healthcare companies like Novartis, Pfizer, by e-commerce companies like Flipkart, Amazon. Basically every company and industry that wants to make smarter decisions using data.

Data Science and AI requires a deep understanding of:

Mathematics

Computer science

Domain expertise

Data Processing

Machine Learning

Storytelling & Human psychology

Data Scientists are recruited by

BIG OPPORTUNITIES IN AI & DATA SCIENCE

Organizations are finding it hard to recruit Data Science and AI talent because Data Science and AI are not one thing rather it's an amalgamation of many areas- it's problem solving ability, machine learning, application of data analysis and ML techniques to drive business results. But more importantly it's a mindset of constantly learning new things and being curious!

GCDAl® program is a revolutionary program that focuses on developing you into a holistic data leader of tomorrow.

Our goal through the program is to equip you with concepts, context and exposure so that not only you have the tools and training but the exposure you require to become a Data leader of tomorrow.

Data Science and AI Industry: Key facts

1.4-1.9
lakhs

Shortage of Data Scientists
in US by 2018

2.7M

WHY GLOBAL CERTIFICATE IN DATA SCIENCE AI

6 ways how GCDAI® program will catapult your career

Global Certification

From India's 1st AI & Data Science academic institution

Global Outlook

Get exposure to ML trends in India, US & Israel.

Rigorous Curriculum

Start from basics and move to advanced topics with ease.

World Class Faculty

Faculty from world's premier institution like ISB

Career Support

Launch successful Data career with INSAID career center

INSAID Vision Fund®

Launch your own ML startup with 15 cr INSAID Vision Fund®.

PROGRAM SNAPSHOT

GCDAI Regular

TERM 01 | Data analysis basics with Python

TERM 02 | Data visualization & EDA

TERM 03 | Machine Learning Foundation

Minor project

TERM 04 | Machine Learning Intermediate

TERM 05 | ML Basics for AI (Recap)

TERM 06 | Capstone Project (Data Science)

TERM 07 | Tensorflow & Keras for AI

TERM 08 | Deep learning foundation

TERM 09 | Deep Learning for NLP-I

TERM 10 | Computer Vision-I

Specialisation
Deep Learning for NLP-II

Specialisation
Computer vision-II

AI Capstone project

Catapult your Career with GCDAI Certificate

“GCDAI® program will make you a Data leader of tomorrow.”

- Suchit Majumdar
Chief Data Scientist, INSAID

INSIDE THE GCDAI PROGRAM'S PROJECT BASED LEARNING MODEL

INSAID's GCDAI Program helps you hit the ground running by making you work on real life projects. Each term has a term project and the program culminates with a GCP(Global Capstone Project) in which you build an end-to-end industry application.

How GCDAI Program's Project Based Learning Model helps

Publish your portfolio online to attract potential employers.

Attract employers

Be productive on Day 1 of your Data Science job by working on end-to-end Data Science project during GCP.

Gain first hand exposure

Prepare for real world Data Science project presentations by presenting your projects in front of expert panel & peers every month.

Sharpen your presentation skills

Crack difficult Data Science projects as we pair you in a team & you collaborate on the project with your team members just like real world.

Real world team work

INSAID SAMPLE REAL WORLD PROJECTS

Indian Premier League 2008-2018

Analyse key success factors for top cricket team at IPL

The matches dataset contains 18 variables and 600+ observations. The deliveries dataset contains 21 variables and 160k+ observations of the IPL 2018 season.

Credit Card Fraud Detection

Identify the fraudulent credit card transactions.

The dataset contains 31 variables and 285k observations of transactions made by credit cards in September 2013 by European cardholders.

Gender recognition by voice

Identify a voice as male or female(SVM)

The dataset contains 21 variables and 3k+ observations to identify a voice as male or female using acoustic properties of voice and speech.

Apriori Algorithm(Market Basket Analysis)

Market Basket Analysis of e-commerce data of transaction of 2010 and 2011

The dataset contains 8 variables and 542k observations of all the transaction of 2010 and 2011 for a UK based and registered non-store online retail.

What caused International crisis

Identify all factors which caused major international crisis events in the last 100 years

The dataset contains 96 Variables and over 1000 observations

Build Chatbot using slack Class

Develop a chatbot to simulate a human as a conversational partner

This chatbot allows us to translate user submitted conversations from English to Hindi

NYC

Analyse flight

The dataset contains flight data from NYC

Europe

Analyse key

The dataset contains 400 observations from years 2010 to 2018

Wine

Analyse factors affecting wine quality

The dataset contains 4000 observations

Automobile pricing data

Analyse factors affecting automobile pricing

INSAID CAREER CENTER

YOUR HOME TO LAUNCHING A SUCCESSFUL
DATA SCIENCE, MACHINE LEARNING CAREER

**INSAID Career center helps you chart your career trajectory,
and get your dream job.**

INSAID Career Center

Get Monthly Career guidance

Get in-depth advice on salaries, roles & job trends through monthly career Q&A.

Become Industry Ready

Attend industry immersion workshops to solve real industry problems.

Become Global Data leader

Interacting with global leaders in Data Science, ML and AI.

Launch Your AI/ML Startup

Get upto INR 20 Lakhs in funding to launch your next AI/ML startup.

Crack Data Science & Machine Learning roles with INSAID CATAPULT®

OUR STUDENTS COME FROM

Kali Pandey
Wipro Bangalore

“ In-class interaction with our faculty Suchit Majumdar, (Chief Data Scientist, INSAID) was amazing. ”

Siboli Mukherjee
Vodafone Cellular Services

“ INSAID gives exposure to industry-led projects and practical applications.. ”

PROGRAM VITALS

Program Start

- First week of every month

Duration

- 11 months - Regular
- 06 months - Fast track

Prerequisite

- Background in Programming
- Laptop with 4 GB RAM

Program Fee

- INR 3 Lakh + GST
